ALUMINIUM LOUVRE METAL AWNINGS

– FIXED & ADJUSTABLE

Aluminium Louvre Awnings are light and durable and are an ideal way to control privacy whilst at the same time not obstructing air flow or the view. Aluminium Louvre blades reflect up to 90% of the heat normally transmitted through a window, which can significantly reduce the energy costs for your home. By choosing an adjustable louvre, with either internal or external operation, you have the luxury of controlling the amount of light, heat and privacy you require by manually adjusting the louvre panels.

Available in a range of standard or custom power-coated colours, Aluminium Louvre Awnings provide a stylish modern finish to your home.

Features & Benefits

- **Protection from the elements:** Aluminium Louvre Awnings provide protection from the sun, wind and rain keeping your house cool in the summer and warm in the winter.
- **Easy panel replacement:** Should any of the panels become damaged, the design provides for easy panel replacement without removing the awning.
- **Three variations:** You can choose from standard open pitch, closed pitch or adjustable louvres with internal or external controls.
- **Extensive colour range:** With a large range of standard colours to choose from or powder coated to match your existing colour scheme, combined with the ability to mix and match panels, you can create a unique look for your home.
- **Complete weather protection:** No eaves? Aluminium Louvre Awning top covers are available for complete weather protection for your windows.

FIXED CANOPY METAL AWNINGS

Fixed Canopy Steel Awnings provide an attractive low-cost solution to the damage caused by Australia's harsh climate. Produced from multi-rib cross-section Tru-steel panels, its rigid strength will provide greater wind resistance and protection against hail and storm damage.

Suitable for both domestic and commercial applications, Fixed Canopy Steel Awnings are available with either self supporting arms or post supports.

Features & Benefits

- **Extensive colour range:** With our large range of Colorbond colours to choose from and the ability to mix and match panels, you can create a unique look for your home.
- **Durable components:** Powdercoated components and Tru-steel panels ensure a robust and long lasting awning.
- **Long lasting and low maintenance:** Ideal to protect entry ways or patios from the elements.
- **Two types of side styles:** Available with standard straight side trim panel or decorative scalloped closed sides.

AUTOMATIC ROLL-UP FABRIC AWNINGS

Protect your home and cut down your cooling expenses with Australian-made Automatic Roll-up Fabric Awnings.

Fabric awnings reduce the total heat load on and in your house, minimising the need for supplementary cooling. Your valuable carpets, curtains and furniture will be protected from direct or reflected sun damage.

The close-fitting design of this versatile and attractive awning makes it an excellent choice for ground floor windows, offering the benefits of optimum privacy and sun protection.

Easy function, self-locking arms enable simple shade adjustment, and when the sun goes down, the awning can be rolled away neatly into a head box.

Features & Benefits

- **Durable fabrics:** Many of the fabrics we use are manufactured in Australia to suit local conditions. So durable, they'll look great for many years.
- **Extensive range of styles & designs:** We have an Automatic Roll-up Fabric Awning to suit a variety of situations and house designs.
- **Technically superior materials:** We make our awnings from components that have been engineered to last in Australia's harsh conditions. Optional Stainless Steel self-locking arms and guide rails are available for seaside locations.
- **Metal headbox:** The optional colour coordinated headbox provides complete protection for your Automatic Roll-up Fabric Awning when retracted.
- **Control:** User friendly self-locking arms allow for flexible height settings with easy adjustment by hand or by a pull stick.

KEY LOCKABLE ALUMINIUM

PLANTATION SHUTTERS

Rollashield®

PREMIUM ROLLER SHUTTERS by **OZROLL**

BLIND MANUFACTURERS' ASSOCIATION OF AUSTRALIA

© Ziptrak Pty Ltd 2015. Ziptrak® Registered Trade Mark of Ziptrak Pty Ltd. (100% Australian Owned).

Ziptrak Pty Ltd is an Australian owned and operated business providing solutions since 2002. We know Australian homes and pride ourselves in the design and manufacture of our products.

Café Blinds

Transform outdoor living areas at a fraction of the cost of conventional building methods.

Traditional
Pulley System

Bottom Roll System

Zips

Borders

Construction Method:

We only use premium quality PVC film. All our PVC is heat welded and has a coloured vinyl perimeter. PVC is 1350mm wide so joins are inevitable. It is available in 1mm or .75mm thick film.

We recommend the following formula:

Top & Bottom Roll Systems = .75mm or 1mm with vertical joins.

Top Roll Only = 1mm with optional horizontal joins.

Inside

Outside

Cafe Blinds are also available in all our top roll systems:
Sunmaster - Suncable - Sunscape - Sunfree Systems
